THE TAKEOFF

BUILDING THE

Airport of the Future

Through Pearson's Long-term Investment in Facilities and Terminals (LIFT) plan, the airport will transform into one of the world's most advanced, sustainable, and passenger-friendly hubs. Over the next decade, it will expand capacity, improve the travel experience, and prepare Canada's largest airport for the future.

But Pearson LIFT goes beyond airport infrastructure. It will amplify and accelerate Pearson's economic impact across the city, the region, the province, and the country.

NATIONAL ECONOMIC SCALE
